

**NSF Certified Vulcanized
Rubber Cable Rubber
Molded Plug Assemblies
Plus Plastic Cable &
Molded Plug Assemblies**

Paige Electric Company has been producing vulcanized rubber and plastic-molded assemblies since the mid-1980s, for many of the industry's most-demanding customers. In order to be RoHS compliant insulation and jacketing materials have had to be changed. Materials that once worked well, no longer do so. Our customers count on our expertise to overcome problems like these. Our engineers extensively research alternative materials allows us to produce world-class molded assembly solutions that keep you ahead of the curve. Paige is (UL) CSA ANSI NSF-61 certified and is working towards CE-approval as well. In the short and long run, Paige molded assemblies are designed to do your job properly without breaking your bank account.

The **Pluses** of PAIGE vulcanized rubber assemblies.

Certified for Drinking Water
(Potable Water).

Plus it is manufactured with (UL)
CSA approvals.

Plus we vulcanize rubber at high
temperatures and use no potting compounds.

Plus we bond the jackets & wire
insulation to assure complete integrity
and zero leakage.

Plus we test to upwards of 1000 PSI

Plus the assembly approvals stand by
themselves so replacement leads in the field
are no longer a concern.

Plus we can do single conductor, Flat
Jacketed, and Round Jacketed constructions.

Plus over 30 years of manufacturing
experience.

Plus 100% testing available to assure
zero defects.

Plus ability to do just in time inventory by
carrying the largest inventory in the industry.
